The Chairman and Management,
Education Champions League (ECL).

Dear Sir,

LETTER OF APPRECIATION FOR MONETARY AWARDS TO STUDENTS AND SCHOOL.

On behalf of the management, staff and students of Government Comprehensive Secondary School, Borikiri, Port Harcourt, I write to express our deep and heartfelt gratitude for the monetary awards given to our four students and to the school. We confirm that the payment has been received in full.

Your generosity has brought great joy to our school community. Many of our students come from homes that are not financially strong, and this award will go a long way in supporting their parents. It will help them provide for their children's educational needs, such as textbooks, school materials, uniforms and examination fees, as well as other necessities of daily life. For these families, your gift is a real relief and a source of hope.

The award to the school will also make a lasting difference. With these funds, we will repair the many broken tables and chairs so that our students can learn in comfort. We will fix the water taps so that students have clean drinking water, and repair the leaking roofs of our classrooms and the Chapel Hall. Any remaining funds will go towards other pressing needs of the school.

We sincerely appreciate ECL for providing our students with a platform to develop their academic abilities, critical thinking, teamwork and problem-solving skills. We look forward to a continued participation.

May God continue to bless the Chairman and Management of ECL abundantly, and may He replenish all that you have so generously given.

Yours faithfully,

Mr. Charles Josiah
Principal
Government Comprehensive Secondary School, Borikiri, Port Harcourt.
